

Jeanne Anne Gokotano

AI AUTOMATION ENGINEER · WEB DEVELOPER

EXPERIENCE

AI Automation Engineer

Jun 2025 – Present

VA Philippines

- Design and implement AI-driven automation solutions tailored to client requirements, reducing manual workflows and accelerating delivery timelines.
- Leverage emerging technologies including n8n, Make.com, and GHY to build scalable, reliable software products that meet evolving business needs.

SEO WordPress Developer

Jul 2022 – Jun 2025

Doxa

- Built and customized WordPress sites with a focus on on-page SEO — title tags, meta descriptions, alt text, and keyword optimization.
- Configured Yoast SEO and Rank Math; monitored performance and keyword rankings via Google Analytics and Google Search Console.
- Collaborated with content teams to structure blog posts for search visibility; improved page speed through image optimization and code cleanup.
- Performed plugin maintenance, troubleshooting, and resolved SEO issues such as broken links, missing metadata, and sitemap errors.

WordPress Developer

Feb 2019 – Jun 2022

Portlight Technology

- Delivered fast, fully responsive WordPress sites customized to client design requirements.
- Built custom plugins and WooCommerce extensions; researched and implemented technologies suited to each project.

Junior Web Developer

Oct 2018 – Jun 2021

TMJ Philippines BPO Services

- Full-stack developer building internal solutions using Agile/Sprint methodology, consistently meeting deadlines without compromising quality.
- Participated in R&D; initiatives to evaluate emerging technologies and expand team capabilities.

Junior IS Associate

Mar 2017 – May 2018

Ingram Micro Philippines BPO LLC

- Handled 24/7 IT operations monitoring across SQL, servers, SAP, networks, and web systems within the IOC department.
- Managed alert escalations including level-one investigation, system validation, and coordination with responsible teams.

IT Specialist

Nov 2016 – Feb 2017

Civicom Pacific Corp.

- Contributed across software and web development projects in a fast-paced multi-product environment, building adaptability and technical independence.

PROFILE

Versatile developer with 8+ years spanning AI automation, WordPress development, and full-stack web. Passionate about adopting new technologies to deliver fast, reliable solutions for clients.
